Rick Perry is pushing new measures in Texas designed to restrict abortion and protect health care for the state's poor. But along with those steps comes the backing of some of the most powerful figures in conservative politics. "What's important about the governor is he's the most high-profile Republican to make it an issue," said Texas strategist Greg Walden. "I think he can demonstrate success." Perry's accomplishments so far on the abortion issue range from signing laws aimed at ending parental notification for minors seeking abortions to increasing funding for the fertilization of eggs that are frozen for later implantation. The new state law allows abortion providers to be prosecuted for the death of the fetus if there is evidence that the abortion was performed against the mother's will, which critics say could open the door to prosecuting women for self-induced abortion deaths. "It certainly makes life tougher for providers and women who are considering or considering an abortion," said Wendy Montgomery, president of the National Organization for Women. Asked if women have faced more obstacles when trying to get abortions in Texas, abortion rights activists have come back with the same answer: "yes." "In Texas, the news is already bad," Montgomery said. "The current law is a ban on abortion, and they have no idea what's going to happen to women's health and reproductive rights in the state of Texas after the 2014 election." Perry's new measures have been in the works for more than a year, according to abortion-rights advocates. The bills to require women to get ultrasounds and waiting periods before an abortion were introduced in late 2011, and the parental notification bill was introduced in February 2012, according to the National Conference of State Legislatures. Perry's popularity and his strong fundraising have helped the Republican governor keep his office in the 2014 election cycle, even
