features EasyTournament is a free easy tournament software program for soccer, basketball, ice hockey, handball, football and floorball. You can copy the program files to any location on the hard drive and even to a portable storage unit such as a USB flash drive, in order to run it on any computer that you have access to. It is also important to remember that the Windows registry and Start menu/screen are not going to get updated with new entries. After you create a new tournament, you are required to add general details such as name, description, location, begin and end dates, and contact person. Moreover, you can control game duration and points (number of periods, number of overtimes, required points to win etc.), rules and events (e.g. in soccer one goal means one point). This application contains an editing tool, in which you can customize the built-in tournament

diagrams. It is possible to change colors of all the boxes, font style and size, zoom in and out, as well as align all the elements to the left, right, center, top and bottom. You can upload ETT or XML files with team information, or manually input it, along with details pertaining to players (number, position, name, picture etc.) and staff. Statistics can be generated for goals, penalties, goals and assist, goals including penalty shootout, and the list goes on. There is also a tab in which you can manually generate statistics, seeing that you can input dates, playtime, grouping and what game events to follow. All in all, EasyTournament is a free easy tournament software program
